PROFESSIONAL SUMMARY

Principal UX / Product Designer with 15+ years of experience designing enterprise SaaS platforms, data-intensive systems, and complex operational workflows. Skilled at translating intricate business logic into intuitive interfaces that improve decision-making and workflow efficiency. Recently focused on designing AI-assisted and agentic AI enterprise workflows across supply chain, finance, and analytics platforms. Experienced in collaborating with global engineering and product teams to deliver scalable design systems and enterprise-grade user experiences. Available to join immediately.

CAREER HIGHLIGHTS

- 15+ years designing enterprise SaaS, AI-assisted, and data-intensive platforms across 3 organizations.
- Delivered UX for 5 AI-driven enterprise products at SOULAX: predictive analytics, trailer inventory, quote generation, lien registration and search, and inspection monitoring.
- Designed 4 enterprise products at Persistent Systems for Kyndryl and other clients, including Kyndryl Bridge, a flagship platform used by enterprises worldwide.
- Spent 9+ years at Actifio, contributing to the UX and design system for enterprise products through the company's acquisition by Google.

CORE SKILLS

Design: Enterprise UX Design, Product Design, SaaS Platforms, UX Strategy, Information Architecture, Interaction Design, Design Systems, Usability Optimization, Data Visualization, Analytics Dashboards

Specialties: AI-Assisted Interfaces, Agentic AI Workflows, Complex Workflow Systems, Operational Platforms, Predictive Analytics, Mobile App Design, Cross-Functional Collaboration, Design Reviews, Mentoring

Tools: Figma, HTML, CSS (front-end collaboration)

PROFESSIONAL EXPERIENCE

Specialist UX Designer | **SOULAX (Formerly Citridot Solutions)**
June 2024 – Present | *Hyderabad, India*

Lead user experience design for Agentic AI systems that autonomously plan, decide, and act across enterprise workflows, translating complex AI logic into intuitive tools for critical business operations.

- Designed predictive analytics dashboards that translate forecasting models into actionable operational workflows, helping teams move from reactive to proactive maintenance planning.
- Designed the interface for an AI Trailer Inventory system, enabling real-time, AI-driven tracking and management of large trailer inventories and reducing manual search effort.
- Designed the UX for an AI Quote Generation platform, simplifying complex multi-variable financial workflows into a user-friendly tool that generates accurate quotes quickly.
- Designed the interface for Lien Registration and Search, streamlining legally complex processes for financial institutions and making lien searches more efficient and less error-prone.
- Designed the UX for an AI Inspection Dashboard, giving managers a comprehensive view to monitor AI-driven inspection results and flag anomalies quickly.

Specialist UX Designer | **Persistent Systems**
May 2020 – June 2024 | *Hyderabad, India*

Led UX design for key enterprise clients including Kyndryl, collaborating with cross-functional teams to deliver cohesive and scalable design solutions.

- Designed the UX for Kyndryl Bridge, a flagship digital platform that connects and manages IT estates for enterprises worldwide.

- Designed the interface for Kyndryl Solution Library, enabling users to discover, understand, and deploy technical solutions with ease.
- Led UX design for the ENPF Mobile App, improving on-the-go access to critical data and workflows for field engineers.
- Designed the UX for Beatflow, an intelligent workflow automation tool that helps teams streamline processes and improve productivity.

Senior UI/UX Designer | **Actifio (Acquired by Google)**
November 2010 – May 2020 | *Hyderabad, India*

Collaborated with a global team of designers and architects to define the user interface for Actifio's enterprise-class SaaS backup and disaster recovery solutions for Google Cloud and hybrid workloads.

- Designed complex data management workflows to be simple and intuitive for system administrators.
- Contributed to the design system, ensuring consistency across the enterprise product suite.
- Played a key role in the UX evolution of the product, which contributed to the company's acquisition by Google.

LEADERSHIP & MENTORING

- Mentored UX interns, guiding them through requirement analysis, workflow structuring, and high-fidelity interface design.
- Conducted regular design reviews and gave feedback on usability, interaction clarity, and visual hierarchy to strengthen design quality.

EDUCATION

MS.IT | IASE University, Sardarshahr, Rajasthan | 2005

Certified Course in Human Computer Interaction (HCI) | IDC, IIT Bombay, Mumbai | 2006

Advanced Diploma in Multimedia | Arena (Aptech Division), Hyderabad | 2003
