PROFESSIONAL SUMMARY

Principal UX / Product Designer with 15+ years of experience designing enterprise SaaS platforms, data-intensive systems, and complex operational workflows. Skilled at translating intricate business logic into intuitive interfaces that improve decision-making and workflow efficiency. Recently focused on designing AI-assisted enterprise workflows across supply chain, finance, and analytics platforms. Experienced in collaborating with global engineering and product teams to deliver scalable design systems and enterprise-grade user experiences.

Key Expertise

Enterprise UX Design, Product Design for SaaS Platforms, Complex Workflow Systems, AI-Assisted Interfaces, Information Architecture, Interaction Design, Design Systems, Data Visualization, UX Strategy, Usability Optimization, Figma, HTML & CSS (Front-end Collaboration)

Leadership & Mentoring

Mentored UX interns, guiding them through requirement analysis, workflow structuring, and high-fidelity interface design. Conducted regular design reviews and provided feedback on usability, interaction clarity, and visual hierarchy to strengthen design quality and UX thinking.

PROFESSIONAL EXPERIENCE

SOULAX (Formerly Citridot Solutions) | Specialist UX Designer JUNE 2024 – PRESENT

Leading user experience design for Agentic AI systems that autonomously plan, decide, and act across enterprise workflows. Designing interfaces that translate complex AI logic into intuitive tools for critical business operations.

- Designed predictive analytics dashboards translating forecasting models into actionable operational workflows, enabling teams to move from reactive to proactive maintenance planning.
- Designed interface for AI Trailer Inventory, enabling real-time AI-driven tracking and management of large trailer inventories to reduce manual search time.
- Designed UX for AI Quote Generation, simplifying complex multi-variable financial workflows into a user-friendly tool that generates accurate quotes in seconds.
- Designed interface for Lien Registration and Search, streamlining legally complex processes for financial institutions to make lien searches efficient and error-free.
- Designed UX for Inspection Dashboard, providing managers with comprehensive views to monitor AI-driven inspection results and flag anomalies.

PERSISTENT SYSTEMS | Specialist UX Designer | MAY 2020 – JUNE 2024

Led UX design for key clients including Kyndryl. Collaborated with cross-functional teams to deliver cohesive and scalable design solutions for enterprise platforms.

- Designed UX for Kyndryl Bridge, a flagship digital platform that connects and manages IT estates for enterprises worldwide.
- Designed interface for Kyndryl Solution Library, enabling users to easily discover, understand, and deploy technical solutions.
- Led UX design for ENPF Mobile App, improving on-the-go access to critical data and workflows for field engineers.
- Designed UX for Beatflow, an intelligent workflow automation tool helping teams streamline processes and improve productivity.

ACTIFIO (Acquired by Google) | Sr. UI/UX Designer | NOV 2010 – MAY 2020

Collaborated with global team of designers and architects to define user interface for Actifio enterprise-class SaaS backup and disaster recovery solutions for Google Cloud and hybrid workloads.

- Designed complex data management workflows to be simple and intuitive for system administrators.
- Contributed to design system ensuring consistency across the enterprise product suite.
- Played key role in UX evolution leading to company acquisition by Google.

W2SOFTWARE / STATSCHEDULES (Acquired by Passport Health/Experian Healthcare) | UX Designer - MAY 2004 – SEPTEMBER 2010

Led complete UX lifecycle for STAT Enterprise Scheduling Application, a critical system for the healthcare industry.

- Redesigned core scheduling interface, significantly reducing time for hospital staff to book and manage patient appointments.
- Conducted user research to understand pain points and translate them into effective design solutions.
- Established foundational UX processes that guided product growth until acquisition by Experian.

EDUCATION

MS.IT | IASE University, 2005 | Sarrshahr, Rajasthan

Certified Course – HCI (Human Computer Interaction) | IDC - IIT Bombay, 2006 | Mumbai

Advance Diploma in Multimedia | Arena (Aptech Division), 2003 | Hyderabad
